CONTENTS

No. 1, January, 1945

On the Structure of Anaerobic Bacteria. A. Imšenecki 1
Microbiological Aspects of Penicillin. VII. Bacterial Penicillinase. H. Boyd Woodruff and Jackson W. Foster 7
Microbiological Aspects of Penicillin. VIII. Penicillin from Different Fungi. Jackson W. Foster and Edward O. Karow 19
The Utilization of β-Alanine and Pantothenic Acid by Yeasts. Herbert P. Sarett and Vernon H. Cheldelin 31
The Pantothenic Acid Requirements of Lactic Acid Bacteria. Vernon H. Cheldelin, Edward H. Hoag, and Herbert P. Sarett 41
Effects of Enzyme Preparations upon Penicillin. I. A Method for Testing Penicillin for Sterility. C. A. Lawrence 47
Effects of Enzyme Preparations upon Penicillin. II. Agents Responsible for Penicillin Inactivation. C. A. Lawrence 57
Studies on the Action of Sulfonamides on the Respiration and Growth of Bacteria. A. Factors Controlling the Inhibition by Sulfonamides of Carboxylases. I. Antagonism Between Cocarboxylase and Sulfathiazole. M. G. Sevag, Myrtle Shelburne, and Stuart Mudd 65
Studies on the Action of Sulfonamides on the Respiration and Growth of Bacteria. A. Factors Controlling the Inhibition by Sulfonamides of Carobxylases. II. Antagonism Between *p*-Aminobenzoic Acid and Sulfathiazole. M. G. Sevag, Jane Henry, and Ruth A. Richardson 71
Studies on the Action of Sulfonamides on the Respiration and Growth of Bacteria. A. Factors Controlling the Inhibition by Sulfonamides of Carboxylases. III. Antagonism Between Neopeptone and Serum Proteins, and Sulfonamides. M. G. Sevag, Ruth A. Richardson, and Jane Henry 79
Penicillin. III. The Stability of Penicillin in Aqueous Solution. Robert G. Benedict, William H. Schmidt, Robert D. Coghill, and A. Paul Oleson 85
The Glanders Organism with Reference to Its Cell Inclusions. Gordon Worley, Jr., and Gerald Young 97
Improvements in the Cylinder-Plate Method for Penicillin Assay. G. W. Beadle, H. K. Mitchell, and David Bonner 101
Notes:
Oxidation of Butyric Acid by Streptococci. C. F. Niven, Jr., J. B. Evans, and J. C. White 105
Use of Horse Meat Infusions in Culture Mediums. Rachel E. Hoffstadt 106
Proceedings of Local Branches of the Society of American Bacteriologists 107

No. 2, February, 1945

Cytophaga columnaris (Davis) in Pure Culture: A Myxobacterium Pathogenic to Fish. Laura Garnjobst 113
Studies on the Action of Sulfonamides on the Respiration and Growth of Bacteria. B. Factors Influencing the Correlation of the Inhibition of Respiration with the Inhibition of Growth of *Escherichia coli*, Pneumococcus, Type 1, and *Staphylococcus aureus*. I. The Interference of the Evolution of Hydrogen with the Measurement of the Inhibition of Oxygen Consumption in *Escherichia coli*. M. G. Sevag, Jane Henry, and Ruth A. Richardson 129
Studies on the Action of Sulfonamides on the Respiration and Growth of Bacteria. B. Factors Influencing the Correlation of the Inhibition of Respiration with the Inhibition of Growth of *Escherichia coli*, Pneumococcus, Type 1, and *Staphylococcus*

aureus. II. Effect of Serum on the Inhibition of Respiration and Growth of Pneumococcus, Type 1, and *Staphylococcus aureus* by Sulfonamides and *p*-Aminobenzoic Acid. M. G. Sevag, Ruth A. Richardson, and Jane Henry 139
In Vitro Studies on the Antibacterial Actions of *para*-Aminomethylbenzenesulfonamide Derivatives. C. A. Lawrence 149
Corynebacterium equi in Chronic Pneumonia of the Calf. D. Frank Holtman 159
Starch Digestion by *Vibrio cholerae* in Strongly Aerated Media. Robert K. Jennings 163
Some Effects of Metallic Ions on the Metabolism of *Aerobacter aerogenes*. David Perlman 167
Assimilation of Glucose and Related Compounds by Growing Cultures of *Pseudomonas saccharophila*. Rita Whelton and Michael Doudoroff 177
A Serological Study of Strains of *Alcaligenes radiobacter* and *Phytomonas tumefaciens* in the "M" and "S" Phases. Madeline F. Coleman and J. J. Reid 187
Sulfamethazine: *In Vitro* Action on Enteric Pathogens as Compared with Sulfadiazine and Sulfamerazine. Fritz B. Schweinburg and I. Jacques Yetwin 193
Proceedings of Local Branches of the Society of American Bacteriologists 199

No. 3, March, 1945

The Morphology of *Bacterium tularense*. W. Hesselbrock and Lee Foshay 209
Some Observations on the Filtrability of *Bacterium tularense*. Lee Foshay and W. Hesselbrock 233
The Increase of Bacteriophage *in Vivo* During Experimental Infections with *Shigella paradysenteriae*, Flexner, in Mice. Harry E. Morton and J. Enrique Perez-Otero 237
The Protective Action of Dysentery Bacteriophage in Experimental Infections in Mice. Harry E. Morton and Frank B. Engley, Jr. 245
The Relation of Sporulation and the Range of Variation of the Haplophase to Populational Adaptation. S. Spiegelman and C. C. Lindegren 257
Some Effects of Induced Streptothricin Resistance on *Lactobacillus casei*. David Perlman and Elizabeth McCoy 271
The Germicidal Properties of Certain Quarternary Ammonium Salts with Special Reference to Cetyl-Trimethyl-Ammonium Bromide. J. C. Hoogerheide 277
Conversion of Desthiobiotin into Biotin or Biotinlike Substances by Some Microorganisms. Leon H. Leonian and Virgil Greene Lilly 291
Studies on the Mode of Action of Compounds Containing Available Chlorine. H. C. Marks, Orville Wyss, and Frede B. Strandskov 299
A Study of Cultural Methods for the Quantitative Determination of Bacterial Populations of Distillery Mashes. J. C. Garey, L. A. Rittschof, Leonard Stone, and C. S. Boruff 307
Notes:
A Micrococcus Producing a Mulberry-colored Pigment. Lida F. Holmes and Mary E. Wilson 311
Effect of Intracranial Penicillin Therapy on Brain Involvement in Experimental Relapsing Fever. V. T. Schuhardt and Billie E. O'Bryan 312
Increasing Penicillin Yields with Corn Oil. D. Frank Holtman 313
Proceedings of Local Branches of the Society of American Bacteriologists 315

No. 4, April, 1945

The So-called Genus *Candida* Berkhout, 1923. Juan E. Mackinnon and Ricardo C. Artagaveytia-Allende 317
Heat Activation Inducing Germination in the Spores of Thermotolerant and Thermophilic Aerobic Bacteria. Harold R. Curran and Fred R. Evans 335
The Oxidation of Glycerol by *Streptococcus faecalis*. I. C. Gunsalus and W. W. Umbreit 347

The Value of Bacteriophage in Classifying Certain Soil Bacteria. H. J. Conn, Elizabeth J. Bottcher, and Challiss Randall 359
On the Microscopic Methods of Measuring the Dimensions of the Bacterial Cell. Georges Knaysi 375
The Inheritance of Environmentally Induced Characters in Bacteria. J. M. Severens and F. W. Tanner 383
Penicillin. IV. A Device for Placing Cylinders on Assay Plates. Max D. Reeves and William H. Schmidt 395
A Partially Defined Medium for Cultivation of Pneumococcus. Mark H. Adams and Amy S. Roe 401
Penicillin. VI. Effect of Dissociation Phases of *Bacillus subtilis* on Penicillin Assay. William H. Schmidt, George E. Ward, and Robert D. Coghill 411
Proceedings of Local Branches of the Society of American Bacteriologists 413

No. 5, May, 1945

The Biochemical and Serological Relationships of the Organisms of the Genus *Proteus*. Robert Rustigian and C. A. Stuart 419
Further Studies on Urease Production by *Proteus* and Related Organisms. C. A. Stuart, Elizabeth van Stratum, and Robert Rustigian 437
The Sugar Tolerance of Four Strains of Distillers' Yeast. William D. Gray 445
Oxidation-Reduction Potentials of the Contents of the Gastrointestinal Tract. Olaf Bergeim, Jacob Kleinberg, and E. R. Kirch 453
A Proposed Biochemical Basis for the Genus *Pseudomonas*. Walter C. Tobie 459
A Medium Containing an Acid Casein Hydrolyzate for Use in Testing Disinfectants. Paul A. Wolf 463
A Study of Some Environmental Factors Which Control Endospore Formation by a Strain of *Bacillus mycoides*. Georges Knaysi 473
Amino Acid Requirements of *Acetobacter suboxydans*. J. L. Stokes and Alma Larsen 495
Clostridium parasporogenes, an Invalid Species. G. B. Reed 503
Storage of Influenza Virus for Use in Typing Clinical Cases. Alfred L. Florman and Alice B. Weiss 507
Notes:
A New Type *Salmonella*. Charles C. Randall and Dorsey W. Bruner 511
A Note on the Tribe *Mimeae* (De Bord). Wilbur E. Deacon 511
A Paracolonlike Bacillus Isolated from Colitis in an Infant. P. R. Edwards 513
A New *Salmonella* Type: *Salmonella papuana*. Kingston S. Wilcox, P. R. Edwards, and Margaret Coates 514
Purification of High Titer Tetanus Toxin. M. J. Pickett, P. D. Hoeprich, and R. O. Germain 515
Triple-Sugar Iron Agar Medium for the Identification of the Intestinal Group of Bacteria. A. A. Hajna 516
Salmonella Types Isolated in Maryland Between 1936 and 1943. A. A. Hajna and C. A. Perry 518
Proceedings of Local Branches of the Society of American Bacteriologists 519

No. 6, July, 1945

Can Chemotherapy Be Extended to Include the Intracellular Disease Agents? Stuart Mudd 527
The Growth of Aerobic Thermophilic Bacteria. A. Imšenecki and L. Solnzeva 539
The Antigenic Structure and Specificity of Luminous Bacteria. George H. Warren 547
Anaerobic Fermentation of *Cryptostegia* Leaves for Recovery of Rubber. Joseph Naghski, Jonathan W. White, Jr., Sam R. Hoover, and J. J. Willaman 563

A Series of New Sulfonamides Which Are Unaffected by *p*-Aminobenzoic Acid. G. R. Goetchius and C. A. Lawrence 575
Antifungal Properties of Antibiotic Substances. H. Christine Reilly, Albert Schatz, and Selman A. Waksman 585
Active Enzmye Preparations from Bacteria. George Kalnitsky, M. F. Utter, and C. H. Werkman 595
Bacteriological Studies in Endocarditis. Ward J. MacNeal and Anne Blevins 603
Antibacterial Substances from Plants Collected in Indiana. Dorothy W. Sanders, Paul Weatherwax, and L. S. McClung 611
Investigation of the Existence and Nature of Reserve Material in the Endospore of a Strain of *Bacillus mycoides* by an Indirect Method. Georges Knaysi 617
Some Effects of Penicillin on Intestinal Bacteria. A. R. Thomas, Jr., and Max Levine 623
Growth of *Eberthella typhosa* and *Aerobacter aerogenes* in Association in Tetrathionate Broth. E. S. Wynne and O. B. Williams 629
Note:
A Bacteriophagelike Principle for *Pseudomonas pyocyanea* (*Pseudomonas aeruginosa*). L. B. Fastier 633
Proceedings of Local Branches of the Society of American Bacteriologists 635
Index of Authors 637
Index of Subjects 639
